I was on a conference call most of the afternoon and now have to leave to catch my bus home. Tomorrow is my flex day.

I will send the HRCT data on Monday. I might take me a while to find it. I have way too many Marysville spreadsheet on my computer.

Thomas Bateson---07/05/2012 02:12:46 PM---Thanks Bob, You had previously agreed to share your copy of the UC HRCT data with NCEA. It is my un

Subject: HRCT data

Thanks Bob,

You had previously agreed to share your copy of the UC HRCT data with NCEA. It is my understanding that these data are not part of the contract (primary or secondary).

As I wrote earlier, we think it makes sense to delve into these data now and begin assessing the potential impact they may have on the RfC. NCEA staff have some time now to look at this and we are trying to work as efficiently as possible towards completing the Libby assessment.

Please share those HRCT data with us along with whatever caveats are appropriate.

Thanks,
Tom

Bob Benson---07/05/2012 11:29:53 AM---Unfortunately because of travel schedules, we can't get a conference call scheduled until July 23, 1

Subject: See attached for an update on the Region 8 work with UC on the RfC issues

Unfortunately because of travel schedules, we can't get a conference call scheduled until July 23, 10-12 (EDT). Region 8 will send call in information later.
